Sir:

The following statement of the substance of a personal interview conducted between the Examiner and the undersigned on August 12, 2003.

During the interview, claims 1 - 4 of the subject application were discussed. It was agreed that claims 1 - 4 were supported by the original disclosure, including, for example, the disclosure at page 8, lines 14 - 22 of applicants' specification.

During the interview, the Examiner indicated there may be an issue with respect to whether an obviousness-type double patenting rejection is proper over recently allowed parent application Serial No. 09/911,841. It was agreed that the filing of a terminal disclaimer would expedite prosecution of the subject application.

While not admitting the propriety of any potential obviousness-type double patenting rejection and in order to expedite prosecution of the subject application,

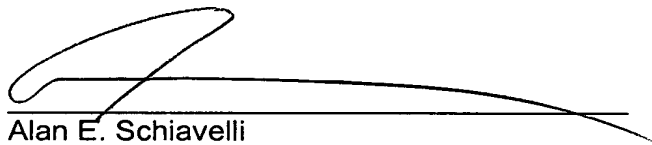

applicants are submitting herewith a properly executed terminal disclaimer disclaiming the terminal portion of any patent issuing on the subject application which would extend beyond the term of any patent issuing on copending application Serial No. 09/911,841.

Early and favorable examination of the subject application are requested.

To the extent necessary, applicants petition for an extension of time under 37 CFR 1.136. Please charge any shortage in the fees due in connection with the filing of this paper, including extension of time fees, to the deposit account of Antonelli, Terry, Stout & Kraus, LLP, Deposit Account No. 01-2135 (Case: 501.22642CC9), and please credit any excess fees to such deposit account.

Respectfully submitted,

ANTONELLI, TERRY, STOUT & KRAUS, LLP
